

# Weekly Report - Playground Series S5E12

Date: 2025-12-23

## Summary

- Added repo structure (data/notebooks/src/reports).
- Implemented HGB baseline + simple feature engineering.
- Implemented objective-weight composite feature (entropy + CRITIC).
- Added CatBoost/LightGBM baseline script (run outside Termux if wheels unavailable).

## Notes

- Raw data is not committed; see data/README.md.
